

## 2024 Port Sampling

Moss Point	179 +34 = 213
Empire	186
Abbeville	23

Total            422

Picked up samples from ULL and moved to Ocean Springs

Still full freezers in Abbeville to be split between Covington and Ocean Springs

### In 2023

Moss Point	132
Empire	212
Abbeville	114

Total            458

We made sure the run boats were included in 2024 and better at-sea sampling earlier in the season. We have added a unique ID to be added to the fish samples tag to tie the CDFR set data to the NOAA Life History data later. Still testing and some concerns were raised regarding practicality of including a random number from the wheelhouse.
